Form No: KVCET/IQAC/ICT/TP/28

Date: 11.11.2022

Submitted to Principal for Approval:

Subject: Request for permission to conduct **Guest Lecture On “Machine Learning Applications in Industries”**.

Through: HOD – Training and Placement

Respected Sir,

The Training and placement is planning to conduct **Guest Lecture On “Machine Learning Applications in Industries”** for our students on 19-11-2022. These kinds of training programs are an effective way of sharing information and develop the ability skill among the students. It keeps students informed clearly and effectively and helps to keep them engaged.

I request you to give permission to organize this competition.

Thanking you

Yours faithfully,

Event Coordinator

Circular

Ref. No.: KVCET/IQAC/ICT/TP/28

Date:-12.11.2022

This is to inform that Guest Lecture on “**Machine Learning Applications in Industries**” will be conducted on **19-11-2022**. Students are asked to enrol your names for the above mentioned competition as earlier as possible with the coordinator.

HODs and respective department staff members are instructed to follow up the same. Your whole hearted co-operation is needed to conduct the competition in a gentle manner.

About the Program:
 IoT software addresses its key areas of networking and action through platforms, embedded systems, partner systems, and middleware. These individual and master applications are responsible for data collection, device integration, real-time analytics, and application and process extension within the IoT network. They exploit integration with critical business systems (e.g., ordering systems, robotics, scheduling, and more) in the execution of related tasks.

- Program Objectives:**
- technical knowledge and skills to build Internet of Things (IoT) systems.
 - It's highly practical, with 75% the technical content delivered during lab sessions.
 - In these sessions you'll do exercises involving system design device programming and cloud development

Program Outcomes:
 Collect and analyze telemetry from connected sensors, devices, and equipment for real-time tracking, monitoring, management, and remote control

Report on "GUEST LECTURE ON MACHINE LEARNING APPLICATIONS IN INDUSTRIAL"

Academic Year: 2022-2023

Semester: Odd

Date and Time	19.11.2022
Duration of Program	2Hrs
Name and Type of the event	Guest Lecture On Machine Learning Applications In Industrial
Event Venue	CC2 lab, 1 st floor
Organized By	Department of Training and Placement
Program Co-ordinator	Mr.U.Arun
Targeted Audience	IV – CSE, IV – MCA, III – ADS, III - ROBOTICS
No. of participants enrolled	90

Event Details:

Machine learning applications in industrial was organized by Training and Placement, on 19th November, 2022. The main objective of the programme was to familiarize participants with the emerging ideas on machine learning algorithms and how it is used in Real-time applications. The main content of the program was displayed on presentation. They taught the students about various simple algorithms like linear regression, support vector machines, etc... Presented using slide shares and gave many realistic examples. It was a great day of learning and exposure about machine learning algorithms to our students. The programme ended up with vote of thanks short feedback session from the students led by lecturer, programme coordinator.

Submitted to Principal for Approval:

Subject: Request for permission to conduct Five days Workshop on “Advanced Database Technology”.

Through: HOD – Training and Placement

Respected Sir,

The Training and placement is planning to conduct “Advanced Database Technology” for our students on 25-07-2022. These kinds of training programs are an effective way of sharing information and develop the ability skill among the students. It keeps students informed clearly and effectively and helps to keep them engaged.

I request you to give permission to organize this competition.

Thanking you

Yours faithfully,

Event Coordinator

Circular

Ref. No.: KVCET/IQAC/ICT/TP/29

Date:-20.07.2022

This is to inform that Five days workshop on “**Advanced Database Technology**” will be conducted on **25-07-2022**. Students are asked to enrol your names for the above mentioned competition as earlier as possible with the coordinator.

HODs and respective department staff members are instructed to follow up the same. Your whole hearted co-operation is needed to conduct the competition in a gentle manner.

About the Program:

IoT software addresses its key areas of networking and action through platforms, embedded systems, partner systems, and middleware. These individual and master applications are responsible for data collection, device integration, real-time analytics, and application and process extension within the IoT network. They exploit integration with critical business systems (e.g., ordering systems, robotics, scheduling, and more) in the execution of related tasks.

Program Objectives:

- technical knowledge and skills to build Internet of Things (IoT) systems.
- It's highly practical, with 75% the technical content delivered during lab sessions.
- In these sessions you'll do exercises involving system design device programming and cloud development

Program Outcomes:

Collect and analyze telemetry from connected sensors, devices, and equipment for real-time tracking, monitoring, management, and remote control

Report on "FIVE DAYS WORKSHOP ON ADVANCED DATABASE TECHNOLOGY"

Academic Year: 2022-2023

Semester: Odd

Date and Time	25.07.2022
Duration of Program	5 Days
Name and Type of the event	Five Days Workshop On Advanced Database Technology
Event Venue	CC2 lab, 1 st floor
Organized By	Department of Training and Placement
Program Co-ordinator	Mr.U.Arun
Targeted Audience	IV – CSE, IV – MCA, IV – ECE, III – ADS
No. of participants enrolled	84

Event Details:

Training and Placement cell hosted Five Days Workshop on Advanced Database Technology on July 25, 2022. The Workshop held was a highly informative and engaging event that provided attendees with valuable insights in the field of database technology. Participants had the opportunity to learn on database systems, text mining, data mining, Web applications, data visualization, social media and social computational systems, cloud computing. Our students learned a lot and the program came to a close with a brief student feedback session led by the lecturer and program coordinator.

Date: 23.01.2023

Submitted to Principal for Approval:

Subject: Request for permission to conduct Three days Workshop on “Machine Learning”.

Through: HOD – Training and Placement

Respected Sir,

The Training and placement is planning to conduct Three days Workshop on “Machine Learning” for our students on 28-01-2023. These kinds of training programs are an effective way of sharing information and develop the ability skill among the students. It keeps students informed clearly and effectively and helps to keep them engaged.

I request you to give permission to organize this competition.

Thanking you

Yours faithfully,

Event Coordinator

DEPARTMENT OF TRAINING & PLACEMENT

MACHINE LEARNING

ON

28.01.2023

Organized by

About the Program:

AI software addresses its key areas of networking and action through platforms, embedded systems, partner systems, and middleware. These individual and master applications are responsible for data collection, device integration, real-time analytics, and application and process extension within the IoT network. They exploit integration with critical business systems (e.g., ordering systems, robotics, scheduling, and more) in the execution of related tasks.

Program Objectives:

- technical knowledge and skills to build Internet of Things (IoT) systems.
- It's highly practical, with 75% the technical content delivered during lab sessions.
- In these sessions you'll do exercises involving system design device programming and cloud development

Program Outcomes:

Collect and analyze telemetry from connected sensors, devices, and equipment for real-time tracking, monitoring, management, and remote control

Report on "THREE DAYS WORKSHOP ON MACHINE LEARNING"

Academic Year: 2022-2023

Semester: Even

Date and Time	28.01.2023
Duration of Program	3 Days
Name and Type of the event	Three Days Workshop On Machine learning
Event Venue	CC2 lab, 1 st floor
Organized By	Department of Training and Placement
Program Co-ordinator	Mr.U.Arun
Targeted Audience	IV – CSE, IV – MCA, IV – ECE, IV – ADS
No. of participants enrolled	

Event Details:

Machine learning – 3days Workshop was organized by Training and Placement, on 28th January, 2023. The main objective of the programme was to familiarize participants with the emerging ideas on machine learning algorithms and how it is used in Realtime industries. The main content of the program was displayed on presentation. They taught the students about various simple algorithms like linear regression, support vector machines, etc... Presented using slide shares and gave many realistic examples. It was a great day of learning and exposure about machine learning algorithms to our students. Our students learned a lot and the program came to a close with a brief student feedback session led by the lecturer and program coordinator.

Submitted to Principal for Approval:

Subject: Request for permission to conduct Three days Workshop on “**Internet of Things**”.

Through: HOD – Training and Placement

Respected Sir,

The Training and placement is planning to conduct Three days Workshop on “**Internet of Things** ” for our students on 12-05-2023. These kinds of training programs are an effective way of sharing information and develop the ability skill among the students. It keeps students informed clearly and effectively and helps to keep them engaged.

I request you to give permission to organize this competition.

Thanking you

Yours faithfully,

Event Coordinator

About the Program:

IoT software addresses its key areas of networking and action through platforms, embedded systems, partner systems, and middleware. These individual and master applications are responsible for data collection, device integration, real-time analytics, and application and process extension within the IoT network. They exploit integration with critical business systems (e.g., ordering systems, robotics, scheduling, and more) in the execution of related tasks.

Program Objectives:

- technical knowledge and skills to build Internet of Things (IoT) systems.
- It's highly practical, with 75% the technical content delivered during lab sessions.
- In these sessions you'll do exercises involving system design device programming and cloud development

Program Outcomes:

Collect, and analyze telemetry from connected sensors, devices, and equipment for real-time tracking, monitoring, management, and remote control

Report on "THREE DAYS WORKSHOP ON INTERNET OF THINGS"

Academic Year: 2022-2023

Semester: Even

Date and Time	12.05.2023
Duration of Program	3 Days
Name and Type of the event	Three Days Workshop On Internet of Things
Event Venue	CC2 lab, 1 st floor
Organized By	Department of Training and Placement
Program Co-ordinator	Mr.U.Arun
Targeted Audience	IV – CSE, IV – ECE, IV – ADS
No. of participants enrolled	84

Event Details:

Internet of Things – Workshop was organized by Training and Placement, on 12th, May, 2023. The Workshop held was a highly informative and engaging event that provided attendees with valuable insights and hands-on experience in the field of Internet of Things (IoT). Participants had the opportunity to work on practical IoT projects such as setting up IoT development boards and sensors, writing and deploying simple IoT applications, collecting and analysing data from IoT devices. Our students learned a lot and the program came to a close with a brief student feedback session led by the lecturer and program coordinator.
