Three Days Industry Ready  
Skill Development Training (Career Path)

on

Industrial Design  
Visualization & Conceptualization

19<sup>th</sup> to 21<sup>st</sup> September 2022

in association with

### Course Content

- Approach to overall industrial mechanical design.
- Design sketching & modelling techniques.
- How to modularize mechanical design.
- Difference in design for standard parts and custom design.
- How to arrive at schematics of design.
- Distinguish in design approach between prototype design & product design.
- Understanding how to identify critical and non-critical dimensions.
- Interpret how to predict efficiency and performance issues in design.
- Understand manufacturing sequence and machine tolerance impact in design.
- Impact of design on product endurance.
- Detailed design and drafting in – CADD software.
- Live industry examples ; modules and exercises
- DIY –component / tool / equipment innovative design

- 2 The implementation of exchange based on this MOU shall be separately negotiated and determined by both Parties in a formal legal agreement.
- 3.1 Each Party shall preserve the confidentiality of any information (whether in written, oral or electronic form) disclosed to it by the other Party where the other Party has identified such information as being confidential, or where it would be reasonable to expect that confidentiality should attach to such information.
- 3.2 Each Party shall respect and make no claim with regard to the names, brand, trademark, copyrighted material or any other intellectual property rights of the other Party during the period of the Collaboration.
- 4 Nothing shall diminish the full autonomy of either Party, nor will any constraints or financial obligations be imposed by either Party upon the other Party in carrying out this MOU.
- 5 This MOU is subject to revision or renewal by mutual agreement between the Parties in writing. It is also understood that either Party may terminate this MOU at any time, although such action will only be taken after mutual consultation in order to avoid any possible inconvenience to either Party.
- 6 This MOU will be in force for three years in the first instance. Thereafter, renewal of this MOU will be subject to the agreement of both Parties in writing.
- 7 This MOU is a statement of the current intention of the Parties. There is no intention to create legal relations by means of this MOU. Clause 3 only of this MOU is intended to be legally binding with effect from the date of this MOU. All other clauses of this MOU are therefore not legally binding and neither Party has any rights or obligations or may bring proceedings in respect thereof.
- 8 This MOU is effective when the duly authorised representatives of both Parties have signed and dated this MOU.

**About The Institution**

The Karpaga Vinayaga College of Engineering and Technology is a premier technical institution in the industrial zone of Chennai. The college was started in the year 2004 by Honorable Thiru. S. Rajagopathy, Founder and currently the Director for Law, Govt of Tamil Nadu. Ever since its inception it has set the stage for quality technical education for the rural students. The Institution is affiliated to Anna University, Chennai and approved by the AICTE, New Delhi. The college offers Ten undergraduate programmes in the disciplines of AUTOBIL, BT, CSE, CIVIL, EEE, ECE, EEE, MECH, Artificial Intelligence and Robotics and seven post graduate programmes viz., MBA, MCA, M.E.CSE, M.E. Big Data, M.E. Robotics & Cyber Security, M.E. MFG and M.Tech - BT. The institution is accredited by NAAC. The institution is recognized by the UGC under UGB and TGT categories. KVCT has been recognized as a "Scientific and Industrial Research Organization" (SIRO) by the Department of Scientific and Industrial Research (DSIR).

**About The Department**

The Department of Mechanical Engineering was started in the year 2004 with an initial intake of 60 students. It has since then grown significantly by spreading its academic activities in offering courses at Undergraduate level as well as Post Graduate level. Right from its inception, the Department has been focusing on high quality training along with integrated laboratory experience. Its strong and interactive curriculum and hands on learning will make the students capable of taking their career to the next level, whether it be in the professional engineering practice or in advanced studies. The Department has highly qualified and dedicated faculty members and technicians. The Department has established advanced R & D facilities to propagate emerging technologies and develop cutting edge technologies in the field of Additive manufacturing, Robotics and Industrial Automation. The Department has established Industrial Automation Lab in association with BHEL at HEARST Institute Limited.

**About the Workshop**

This One Week STTP will give insights on the current landscape for startup support and tech transition to identify challenges and opportunities to improve the national ecosystem for incubating and sustaining tech startups. Also, the STTP focuses on the Creation of Intellectual Property Rights (IPR) and how to convert the prototype into patents and strategies to commercialize it. The goal of this short term training programme is to bring together the entrepreneurs, startups, Faculty members, Research scholars and students from universities, Research Institutions, Incubation Centers from all around the nation to create large public awareness about the benefits of tech startup and present role of Patent Drafting and Filing.

## Collaboration with International European University, Ukraine for carrying out Joint Academic Activities and Dual Degree Programs

### MEMORANDUM OF UNDERSTANDING

Between

International European University  
(Kyiv, Ukraine)

and

Karpaga Vinayaga College of Engineering and Technology

#### 1. Purpose

With the object of promoting their co-operation in academic education and research, International European University ("IEU") and Karpaga Vinayaga College of Engineering and Technology, individually also "Party" and collectively the "Parties", enter into the following Memorandum of Understanding ("MoU").

#### 2. Forms of Co-operation

Within such fields as are mutually acceptable for the Parties, the following forms of co-operation, amongst others, may be pursued hereunder:

- Exchange of students
- Dual-degree programs
- Joint teaching activities
- Joint research activities
- Visits by, and exchange of, scholars, teachers and other staff.

#### 3. Specific Co-operation Projects

Specific co-operation projects, for instance within such fields as described in section 2 above, must be negotiated separately between the Parties and are in each specific case to be established in separate written agreements, stating the respective rights and obligations of the Parties. In case of any ambiguity or conflict of terms between the terms and conditions of this MoU and those of a separate agreement as mentioned above, the terms and conditions of such separate agreement shall prevail.

#### 4. Financial Arrangements

Both Parties understand that all financial arrangements between the Parties have to be further negotiated and mutually agreed, and will depend on the availability of funds. Both parties may seek financing of joint activities from internal and external sources available to them.

#### 5. General Coordinators

Each Party shall designate an administrative office to oversee and facilitate the implementation of any agreements arising out of this MoU. These offices are:
